PRIOR APPLICATION DATA

The present application is a national phase application of International Application PCI/IL03/00834, entitled "Device, system and method for transfer of signals to a moving device" filed on October 15, 2003, which in turn claims priority from US application 60/418,162 filed on October 15, 2002, both of which are incorporated by reference in their entirety. --

Amendments to the Claims:

Please amend the claims as follows.

1. (currently amended) A system for transfer of a signal to an in vivo device, said system comprising:
an in vivo sensing device, the device comprising ~~at least one signal~~ a signal
receiving ~~unit~~, unit; and
an external phased array antenna.
2. (original) The system according to claim 1 wherein the phased array antenna includes at least two antennas.
3. (original) The system according to claim 1 wherein the phased array antenna is configured for surrounding a portion of a body.
4. (original) The system according to claim 1 wherein the phased array antenna is configured for transmission and reception.
5. (canceled)
